## **Our Installations - Case Study 2**

**Location:** Cranbrook Grammar School, Cranbrook, Kent

**Commercial Requirement:** Replacement frames for two school buildings providing residential accommodation to students

**Crittall Recommendation:** Replace original, single glazed aluminium vertical sliders

**Detail:** Existing windows no longer offer adequate installation

**Material Requirement:** Virtually maintenance free PVC-U

**Design Requirement:** Eliminate draughts and look to significantly improve both thermal and noise insulation

**Product Requirement:** Goldline PVC-U top-hung, double-glazed casements

**Construction:** Building constructed of brick with aluminium cladding to the upper storeys

**Result:** Double Glazed frames have been fitted to almost all the windows in the two buildings. Crittall Installation Services has now worked with the school on a number of properties.
